- Competent in meeting any material requirements
- Flexible production capacities
- System supplier
- Pure inventive spirit for your product
- Certified according to EN ISO 13485, IATF 16949 and DIN ISO 14001

The company

The Karl Kűfner GmbH & Co. KG is a leader in technology for hybrid filter screen solutions. Our owner-managed family business has stood for innovation, creativity and know-how for over 70 years. A team of more than 350 employees, at both our Albstadt and Ludwigsstadt location, satisfies our customers worldwide. It is the wealth of experience from which our customers benefit. Kűfner is your expert for individual screen- and filter-solutions for any fluid or gaseous medium. Our filter strainers protect delicate or safety-relevant components from damage and wear – for every industry and application.

From your first idea, to a concept and the final serial product, Kűfner provides a full service from one source. Our high degree of vertical integration, with an in-house mould- and toolmaking, allows us to react quickly, fast and flexible to any specific requirement.

Our standard of quality combined with creativity and our high level of technical know-how makes Kűfner a Global Player from southern Germany.

Let's talk about your project!
